

Condominium [CDM]

WE'RE HERE TO GET YOU THERE.

CONDOMINIUM[CDM] EXECUTIVE SUMMARY

Digital travel sales are expected to reach \$198 billion in 2018 globally. More than 1.4 Billion people globally will search a trip online. The development and inventions of cryptocurrency & blockchain technology is underway to strong arm all the unfair abuse of our current technological systems globally from both a finance and transacting point of view.

With the rapid growth of blockchain adoption globally crypto users are still limited to the “physical use” of their currencies. Condominium has committed to partake in this revolutionary growth by allowing our users to experience life at its purist form. By introducing a “vacation currency” based on the Proof of Stake protocol.

We're Here to Take You There.

Section A

PROJECT OVERVIEW

Condominium

CDM

With the rapid growth of blockchain technology globally the unconventional truth by the mass population globally can still be defined as: "How can physically use a crypto currency?"

Condominium aims to solve this limitation by introducing a global decentralized network platform for crypto users to plan their travel itinerary by using our POS coin with our global partnered travelling agencies and platforms.

WE'RE HERE TO GET YOU THERE.

SECTION A: PLATFORM OVERVIEW

Introducing a global decentralized network platform for crypto users to plan their travel itinerary by using our POS coin with our global partnered travelling agencies and platforms.

Our currency will enable the users to book any travel service such as booking: flights ,hostels, walk in the mountain, renting a car or ski-equipment and many more with a maximum guarantee for their absolute privacy and the best pricing models to ensure their travel independence.

WE'RE HERE TO GET YOU THERE.

CDM NETWORK GUARANTORS

For the growth and security of our network we offer a decent and competitive return on investment for running a CDM Masternode[s]. These guarantors ensure the complete privacy network of transacting value. See Our Rewards Table Next.

Block	Type	Reward	MN	Collateral
1	Premine	300000	-	-
2	POW	5	90%	500
600	POS	0.5	90%	1000
5000	POS	25	90%	2000
9000	POS	75	90%	3000
14000	POS	400	90%	5000
19000	POS	1000	90%	10000
25000	POS	2500	90%	25000
30.5K	POS	2	90%	30000
35K	POS	2000	90%	30000
50K	POS	3000	90%	40000
75K	POS	4000	90%	50000
150K	POS	5000	90%	100000
300K	POS	6000	90%	250000
500K	POS	500	90%	300000
1M	POS	250	90%	400000
2M	POS	100	90%	500000
5M	POS	50	90%	750000
10M	POS	1	90%	1000000

SECTION C: CDM INFLATION TARGETING

Inflation Targeting

SUMMARY OF CDM INFLATION TARGETING

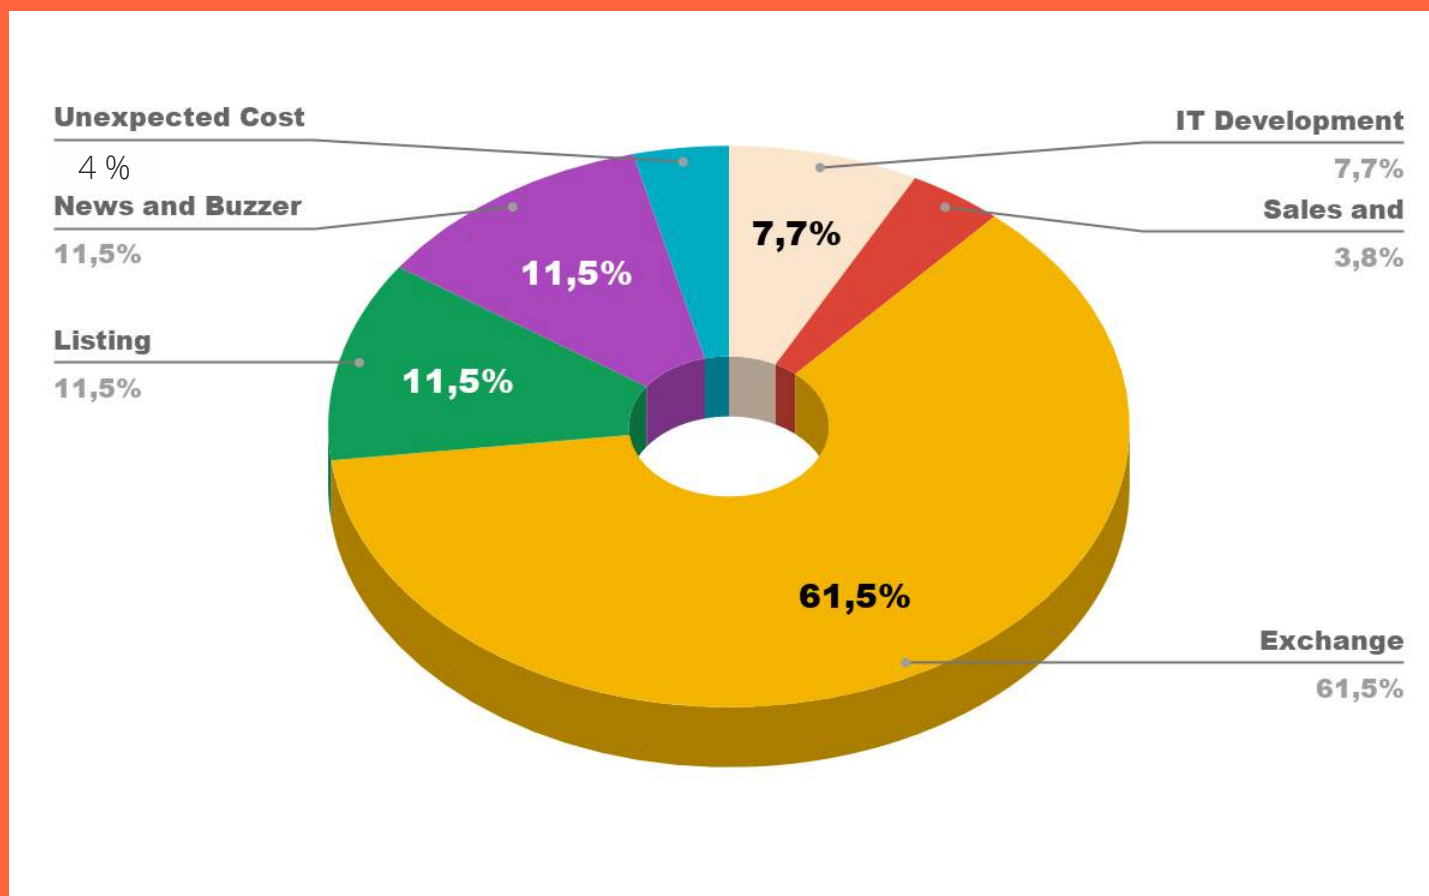

Like any other currency, cryptocurrencies tend to inflate. In mainstream currency, when the supply of money increases more than the demand, the extra increase results in inflation. Inflation means that every coin now can buy less. The monetary authority, the central bank therefore, if it wants to curb inflation, it will need to shrink the supply of money or hoover the existing notes on the market. Remember: curbing inflation depends on the decision of the central bank. With Condominium, this inflation targeting is done automatically without central authority but we admit it is not perfect. The mechanism that we use here, is to automatically increase stake requirements, in other words, master-nodes will have to increase their collateral coin collateral over time with the aim of avoiding over-issuance of the digital currency.

Section D: CDM Fund Allocation

CDM would like to emphasize that the project has never participated in ANY form of ICO or Pre-SALE as of reading this the whole project has been self funded by CDM Founders. Condominium will continue to allocate current fund strategically to the contribution of the success of our project and partnership.

Below you will find the current allocation of funds. You will also be able to find a layout on our website.

This allocation may vary as the founders see it fit inline with the partnerhsips we are working on.

Section E: Marketing

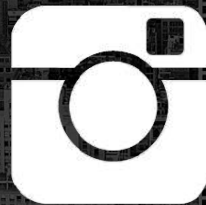

CDM acknowledged that for us to successfully intergrate our platform with all our prospective partnerships we will need a well strategically planned marketing approach and we will do just that. We will make use of the following marketing mediums to run our marketing campaigns. We would also like to emphasize that with any partnership that we will be doing we will have automated marketing as all platforms and agencies we intend to work with have already a user base.

Partnership Email Campaign

Section E: Prospective Partnership

Condominium will commit to partnerships in the travelling industry from small sized to larger global sized travel partners which is geographically positioned all over the world to meet the best interest of all our CDM coin holders and their travel experience. Below you will find some of the prospective partnerships who the Condominium team will be reaching out to. As stated before we will approach small and larger sized travel partners to get the best pricing models to ensure the travel independence of all clients.

SECTION F: CONDOMINIUM CURRENT SUCCESS

Condominium prides itself in progressive and passive achievements. With the introduction of Condominium to the market place we have achieved the following so far:

3 Exchange Listings: Cryptopia / Graviext / CryptoBridge [More Exchange Listings Coming]

Gin Masternode Platform Listing

Simple POS POOL Listing

StakingLab Listing

Snode Listing

8 Price and node Monitoring Listings: Masternode Online / Investing.com / CoinLib / CoinCodex
World Coin Index / Coin Market Cap / NodeCheck / Coingecko

Condominium will now proceed to more exchange listings to ensure the liquidity of the CDM Coin for both our market participants but also our prospective partners. [As Set Out in Our Road-map]

We're Here to Get You There.
